

Swinger Automatic Bag Hangers Series 7105 & 7107

Key Features

- Semi automatic operation
- Large, easy to load magazine requiring no shut-down for reloading
- Bag magazine automatically indexes next stack of bags
- Automatic no-bag/no-product sensing device prevents product discharge unless bag is in place
- Adjustable loading tray for accurate bag spouting
- Quick and easy adjustments for bag size changes
- Low profile design integrates with most scales
- NEMA 12 electrical construction
- Allen-Bradley PLC with HMI

Swinger Automatic Bag Hangers

Series 7105 & 7107

The Series 7105 and 7107 Swinger Automatic Bag Hangers are designed for hanging a variety of bag types at speeds up to 18-20 bags per minute. The 7105 Swinger achieves greater speeds with a filling spout that moves to meet the bag and allows some types of semi-free flowing products an improved discharge into the bag. The 7107 Swinger uses a stationary spout and is designed for larger bags.

Key Benefits

- Easily accessible controls
- Simple operation
- Reduced downtime
- Increased accuracy

Industries

- Pet food
- Sugar
- Salt
- Seed
