- PLC controls
- Case uniformity

Salwasser Case Opener / Sealer

OS Series

Thiele's SWF OS models are fully automatic RSC/HSC case opener/sealers. The OS models are easily integrated with a wide variety of case loading systems to form a fully automatic case packer. Available in a wide variety of standard and customized designs, these models erect, (load) and seal an extensive array of cases. For added flexibility, Thiele's OS units can also be designed to form trays and wraparound blanks.

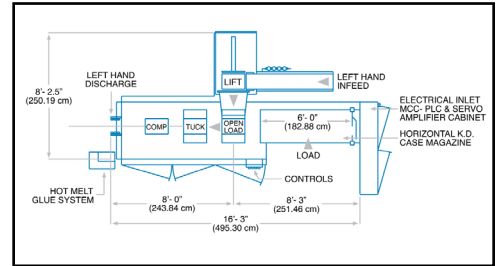

Products handled typically include toilet tissue, paper napkins and towels, cookies, bakery items, cereals and a wide variety of prepared and/or frozen foods. For easy loading, integral floor feed systems for automatically feeding single KD (knock down) cases from a KD stack are also available. Various corrugated ladders and cap formers/placers are also available for trays and HSC cases.

Standard Features

- Up to 25 cases per minute
- Positive case forming
- Full operator safety
- Low maintenance
- Quick changeover
- PLC controls
- Easy loading magazines
- Customized designs
