

**Thiele** Technologies

## Automatic Floor Level Dairy Depalletizer Ratchet & Chain Depalletizers

### Key Features

- Hydraulic operation
- PLC controlled with Ethernet
- Mild steel or corrosion-resistant construction
- On-floor operation (Ratchet type only)
- Above-floor operation (Chain type only)
- Touchscreen controls
- Diagnostic, maintenance & history screens
- In-line pallet magazine
- Empty/full pallet unload/load with fork truck or pallet jack (ratchet type)
- Empty/full pallet unload/load with fork truck (chain type)

# Automatic Floor Level Dairy Depalletizer Ratchet & Chain Depalletizers

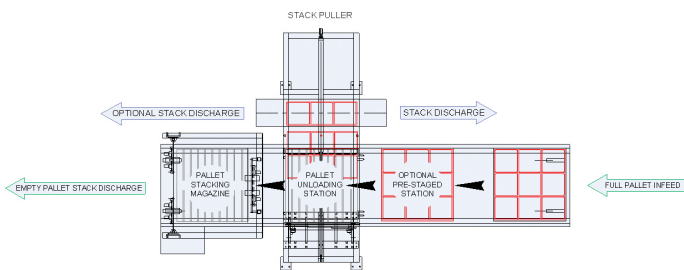

The Ratchet & Chain Depalletizers operate on a simultaneous cycle for optimal speeds. On-floor ratchets or above-floor chains retrieve full pallets and forward them to the unloading station. Full case stacks are fed off the pallet, on to the conveyor. The ratchets or chains move the empty pallet to an optional pallet stacking magazine.

With its safety fence and touchscreen operator interface, Thiele's Dairy Depalletizers offer safe and simple operation. Designed for 24/7 use in all environments for years of productivity.

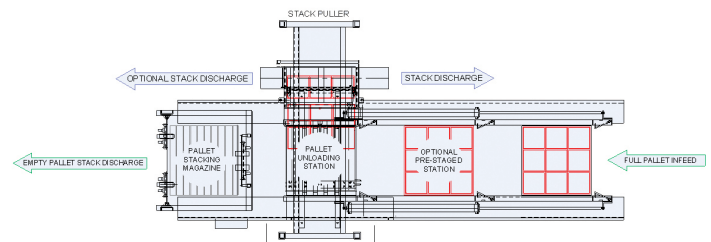

## Optional Features

- Stainless steel construction
- Accommodates multiple pallet sizes
- Pallet magazine
- Designed with pallet washer
- Customer requested PLC

Specifications	
<b>Production Speed</b>	
Up to 2 pallets per minute	
<b>Electrical Requirements</b>	
Control Power	120 volts, 1 phase, 60 Hz
Control Circuit	120 VAC
Electrical Service	200 Amp supply line
<b>Hydraulic Requirements</b>	
Operating Pressure	800 psi
Consumption	22 gpm
