

Swinger Automatic Bag Hangers Series 7102 & 7103

Key Features

- Semi automatic operation
- Large, easy to load magazine requiring no shut-down for reloading
- Bag magazine automatically indexes next stack of bags
- Automatic no-bag/no-product sensing device prevents product discharge unless bag is in place
- Quick and easy adjustments for bag size changes
- Low profile design integrates with most scales
- NEMA 12 electrical construction
- Electro-pneumatic controls require less maintenance

Swinger Automatic Bag Hangers

Series 7102 & 7103

The Series 7102 and 7103 Swinger Automatic Bag Hangers are designed for hanging gusseted sewn open-mouth or pinch-bottom bags. The Series 7102 Swinger uses a stationary spout and can handle up to 15 bags per minute. The 7103 Swinger achieves greater speeds with a filling spout that moves to meet the bag and can handle up to 20 bags per minute.

Key Benefits

- Simple operation
- Reduced downtime
- Increased accuracy

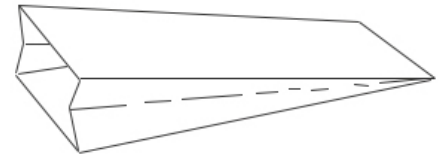

Industries
